Room and board is defined as double occupancy and 19 meals per week or the maximum meal plan. Required fees include only charges that all full-time students must pay that are not included in tuition (e.g., registration, health, or activity fees.) The following definition of full-time instructional faculty is used by the American Association of University Professors (AAUP) in its annual Faculty Compensation Survey (the part time definitions are not used by AAUP). Instructional Faculty is defined as those members of the instructional-research staff whose major regular assignment is instruction, including those with released time for research. Use the chart below to determine inclusions and exclusions:

Also includes full-time faculty teaching less than two semesters, three quarters, two trimesters, or two four-month sessions. Employees who are not considered full-time instructional faculty but who teach one or more non-clinical credit courses may be counted as part-time faculty.

*Minority faculty:* includes faculty who designate themselves as Black, non-Hispanic; American Indian or Alaska Native; Asian, Native Hawaiian or other Pacific Islander, or Hispanic.

*Doctorate:* includes such degrees as Doctor of Philosophy, Doctor of Education, Doctor of Juridical Science, and Doctor of Public Health in any field such as arts, sciences, education, engineering, business, and public administration. ### I2 Student to Faculty Ratio

Report the Fall 2016 ratio of full-time equivalent students (full-time plus 1/3 part time) to full-time equivalent instructional faculty (full time plus 1/3 part time). In the ratio calculations, exclude both faculty and students in stand-alone graduate or professional programs such as medicine, law, veterinary, dentistry, social work, business, or public health in which faculty teach virtually only graduate-level students. Do not count undergraduate or graduate student teaching assistants as faculty.

------------------------------------	----	------	-----------	--------	----------	-----	-------	-----------

### I3 Undergraduate Class Size

In the table below, please use the following definitions to report information about the size of classes and class sections offered in the Fall 2016 term.

**Class Sections:** A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes. Each class section should be counted only once and should not be duplicated because of course catalog cross-listings.

**Class Subsections:** A class subsection includes any subsection of a course, such as laboratory, recitation, and discussion subsections that are supplementary in nature and are scheduled to meet separately from the lecture portion of the course. Undergraduate subsections are defined as any subsections of courses in which degree-seeking undergraduate students enrolled for credit. As above, exclude noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Each class subsection should be counted only once and should not be duplicated because of cross-listings.

Using the above definitions, please report for each of the following class-size intervals the number of class sections and class subsections offered in Fall 2016. For example, a lecture class with 800 students who met at another time in 40 separate labs with 20 students should be counted once in the "100+" column in the class section column and 40 times under the "20-29" column of the class subsections table.

**J. DEGREES CONFERRED****J1 Degrees conferred between July 1, 2015 and June 30, 2016**

For each of the following discipline areas, provide the percentage of diplomas/certificates, associate, and bachelor's degrees awarded. To determine the percentage, use majors, not headcount (e.g., students with one degree but a double major will be represented twice). Calculate the percentage from your institution's IPEDS Completions by using the sum of 1st and 2nd majors for each CIP code as the numerator and the sum of the Grand Total by 1st Majors and the Grand Total by 2nd major as the denominator. If you prefer, you can

## Changes for CDS 2016-2017

The following changes have been initiated on the CDS for 2016-2017:

### Incremental advancement by one for year-dependent items that display an academic year

#### Section C9 (SAT/ACT Reporting) – New instructions regarding the conversion of New SAT scores to Old SAT scores using the College Board’s concordance tools

**Percent and number of first-time, first-year (freshman) students enrolled in Fall 2016 who submitted national standardized (SAT/ACT) test scores.** Include information for **ALL enrolled, degree-seeking, first-time, first-year (freshman) students who submitted test scores.** Do not include partial test scores (e.g., mathematics scores but not critical reading for a category of students) or combine other standardized test results (such as TOEFL) in this item. Do not convert SAT scores to ACT scores and vice versa. **Do convert New SAT scores (2016) to Old SAT scores using the College Board’s concordance tools and tables ([sat.org/concordance](http://sat.org/concordance)).**

The 25th percentile is the score that 25 percent scored at or below; the 75th percentile score is the one that 25 percent scored at or above.

#### Section E (Academic Libraries language) – Removal of no longer relevant sentence regarding academic libraries

Current sentence to be removed: “Library Collections: The CDS publishers will collect library data again when a new Academic Libraries Survey is in place.”

#### Section H5 (Student Indebtedness) – Clarification of the terminology and methodology used to populate the indebtedness grid. Additionally, a new definition added to the glossary for the section.

H5. Number and percent of students in class (defined in H4 above) borrowing from federal, nonfederal, and any loan sources, and the average (or mean) amount borrowed. **NOTE: The “Average per-undergraduate-borrower cumulative principal borrowed,” is designed to provide better information about student borrowing from federal and nonfederal (institutional, state, commercial) sources. The numbers, percentages, and averages for each row should be based only on the loan source specified for the particular row.** For example, the federal loans average (row b) should only be the cumulative average of federal loans and the private loans average (row e) should only be the cumulative average of private loans.

## Changes for CDS 2016-2017

Source/Type of Loans	Number in the class (defined in H4 above) who borrowed from the <b>types of loans specified</b> in the first column	Percent of the class (defined above) who borrowed from the <b>types of loans specified</b> in the first column (nearest 1%)	Average per-undergraduate-borrower cumulative principal borrowed from the <b>types of loans specified</b> in the first column (nearest \$1)

c) Institutional loan programs.		%	\$
d) State loan programs.		%	\$
e) Private student loans made by a bank or lender.		%	\$

*Additionally, a definition for “private students loans” has been added to the glossary that reads: “Private student loans: A nonfederal loan made by a lender such as a bank, credit union or private lender used to pay for up to the annual cost of education, less any financial aid received.”*

### Financial Aid Definitions

**Awarded aid:** The dollar amounts offered to financial aid applicants.

**External scholarships and grants:** Scholarships and grants received from outside (private) sources that students bring with them (e.g., Kiwanis, National Merit scholarships). The institution may process paperwork to receive the dollars, but it has no role in determining the recipient or the dollar amount awarded.

**Indebtedness:** Aggregate dollar amount borrowed through any loan program (federal, state, subsidized, unsubsidized, private, etc.; excluding parent loans) while the student was enrolled at an institution. Student loans co-signed by a parent are assumed to be the responsibility of the student and **should** be included.

**Institutional scholarships and grants:** Endowed scholarships, annual gifts and tuition funded grants for which the institution determines the recipient.

**Financial need:** As determined by your institution using the federal methodology and/or your institution's own standards.
