

UNIVERSITY
OF MIAMI

FALL 2010 FACT BOOK

OFFICE OF PLANNING, INSTITUTIONAL RESEARCH, & ASSESSMENT
P.O. Box 248285
Coral Gables, FL 33124-2923
(305) 284-FACT

www.miami.edu/factbook
pira@miami.edu

To Our Readers:

The information presented in the Fall Fact Book represents the most current benchmark data available. Please note that students who have not completed financial registration by the benchmark date will not appear in the enrollment counts. Copies of this Fact Book have been mailed to deans, associate/assistant deans, department chairs, and other senior administrators. Fact Books are posted online (www.miami.edu/factbook) and are also available in the Richter Library's Special Collection's Division.

TABLE OF CONTENTS

Financial Highlights & Endowment	149

GLOSSARY

Academic Year - Fall and spring semesters and subsequent first and second summer sessions.

Associated Faculty - all faculty with professorial titles prefixed by “Voluntary,” “Adjunct,” “Visiting,” or “Affiliated,” and all Lecturers.

CIP Codes - The Classification of Instructional Programs developed by the National Center for Education Statistics “to create a standard terminology to guide the reporting of data.”

Continuing Studies, Special & Joint Programs - Includes joint-degree, Continuing Studies, and study-abroad programs (non-UM students studying abroad and foreign students studying at UM through the Office of International Education and Exchange Programs).

Degree Program - An academic program leading to a degree.

Degree Student - One enrolled in a degree program.

Doctoral-Research/Scholarship – A Ph.D. or other doctor's degree that requires advanced work beyond the master's level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. Some examples of this type of degree include Ed.D. and D.M.A.

Doctoral-Professional Practice – A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as “first-professional” and include: law (J.D.), medicine (M.D.), physical therapy (D.P.T.), and practical nursing (D.N.P.).

DUG - Degree undergraduate (student).

Educator Faculty - consists of i) Instructors and ii) those faculty with professorial titles engaged primarily in professional practice and in teaching associated with that practice. Educator faculty shall not hold tenured or tenure-earning appointments.

Entering Students - Includes new freshmen, new transfers, and entering graduate/professional students.

Fall-to-Fall Retention Rate - The percent of full-time students enrolled at benchmark in one fall who re-enroll or graduate by benchmark of the next fall.

FTE - Full-time equivalent. For a full-time student, the FTE is equal to 1.0. For a part-time student, the FTE is equal to the student's credit load divided by his/her appropriate full-time load (see below).

Full-Time Load - For fall and spring semesters: 12 semester hours for all undergraduates, 9 for graduate students, 6 for executive M.B.A. students and M.S.P.M. students, 12 for all J.D. students, 12 for LL.M. students, and 4 or more for clinical medical students. A doctoral student taking any dissertation credit or a master's student taking any thesis credit is considered full-time, regardless of the number of dissertation or thesis hours taken.

Graduate (Programs) - All post-baccalaureate work, including law school and clinical medicine.

Graduation Rate - Based on the IPEDS GRS methodology; cohort is degree-seeking students who enrolled for the first time in college either in the fall or in one of the two preceding summer sessions and who were enrolled full-time in that fall. Graduation rates are the percent of the cohort who earned a degree by time indicated (time to degree is through August 31st of degree year).

Headcount - The number of financially registered students, as of benchmark, regardless of their individual credit load.

Home School - Primary school of student

International Programs - Courses taught outside the U.S. under the auspices of the University of Miami.

Librarian Faculty - consists of those faculty serving in the libraries of the University who hold the rank of Librarian Professor, Librarian Associate Professor, or Librarian Assistant Professor and who perform normal professional duties in the libraries, but are not required to undertake scholarly research. Librarian faculty shall not hold tenured or tenure-earning appointments.

NDUG - Non-degree undergraduate (student).

New Freshman - A matriculating degree undergraduate without prior college experience. (See the current University of Miami Bulletin for minor exceptions concerning prior experience.)

New Transfer - A matriculating degree undergraduate with prior college experience.

Part-Time Load - Any semester credit-hour load less than full-time.

Readmitted Student - One who returns to UM after an absence of at least one semester (excluding summer sessions).

Regular Credit Hours - Credits assessed at regular tuition rates.

Regular Faculty - consists of all faculty having tenured or tenure-earning appointments who hold the rank of Professor, Associate Professor, or Assistant Professor.

Research Faculty - consists of those faculty whose major function is to conduct research in the academic units of the University and who hold the rank of Research Professor, Research Associate Professor, or Research Assistant Professor. Research faculty shall not hold tenured or tenure-earning appointments.

Rosenstiel School - Rosenstiel School of Marine and Atmospheric Science.

Special Credit Hours - Credits not assessed at a regular tuition rate or credits where revenue requires special handling.

Teaching School - School of instructor

University Faculty - consists of the President, the Executive Vice President and Provost, the academic deans, the Regular, Research, Librarian, and Educator Faculty.

THE UNIVERSITY OF MIAMI MISSION STATEMENT

The University of Miami's mission is to educate and nurture students, to create knowledge, and to provide service to our community and beyond. Committed to excellence and proud of the diversity of our University family, we strive to develop future leaders of our nation and the world.

AN INTRODUCTION TO THE UNIVERSITY OF MIAMI

History:

Although many people over a period of years played a role in the establishment of the University of Miami, it was William Jennings Bryan who first promoted the need and stimulated a community planning effort for a university to serve the growing Miami area. In 1925 the University received its charter and in the following year enrolled its first students. On March 18, 1926, Bowman Foster Ashe was named executive secretary and subsequently president of the University by the Board of Regents.

The cornerstone of the Merrick Building, which was to house classrooms and administrative offices, was laid on February 4, 1926, on land donated by George E. Merrick, founder of Coral Gables. Merrick also donated \$5 million to be matched by other sources. When Merrick's donation could not be matched, the work that had begun on the Merrick Building ceased and a decision was made to convert the partially constructed Anastasia Hotel into temporary quarters for the University. In the rush to finish the Anastasia Building before the announced opening of the University in October, cardboard-covered partitions were used to separate rooms, leading to the name "Cardboard College." Construction of the Merrick Building would not resume until 1949, 23 years after it started.

In September, just before the first classes were to begin, the monster hurricane of 1926 swept through South Florida, causing destruction that left the University further in debt. In spite of tremendous adversity, the University managed to open its doors on October 15, 1926, offering programs in the liberal arts and music to 560 students. The School of Law was added in 1928 and the Schools of Business and Education were created in 1929.

The Florida depression that followed the collapse of the real estate market and the national depression that started in 1929 added further financial burdens that brought the survival of the University into question. President Ashe had to resort to borrowing on his personal insurance policy to pay faculty salaries. Still in debt, the University filed a petition for bankruptcy in 1932. Determined to keep the University going, President Ashe and others formed a new corporation, The University of Miami, Inc., and in 1934, at an auction, bought back the University's property for \$15,758.84.

The 1940s were a time of great change at the University. During World War II, President Ashe arranged to have university facilities available for training U.S. Army and British Royal Air Force personnel. In addition, the war gave the University reason to expand its facilities. The Graduate School was created in 1941 and the Marine Laboratory was formally established in 1943. In 1947, shortly after the war ended, the School of Engineering was founded, and the University began the excavation of Lake Osceola.

Growth continued at the University in the 1950s. The School of Medicine, the first to be accredited in the state of Florida, was founded in March of 1952. After President Ashe fell ill and subsequently died in December of 1952, Jay F. W. Pearson was named the second president of UM in January of 1953. President Pearson served in that capacity until 1962. During his tenure, the first computer on the UM campus was installed in the Engineering Building and the Board of Trustees removed all racial barriers from admission policies.

Henry King Stanford became the University's third president on April 18, 1962. The Department of Nursing, which originated as a department in the College of Arts and Sciences, became the School of

Nursing in 1968. Also in 1968, with a gift from The Rosenstiel Foundation, the University obtained a deed for 9.7 acres of land on Virginia Key. Shortly after these events, in 1969 the Institute of Marine Science (formerly the Marine Laboratory) became a school and several months later was renamed the Rosenstiel School of Marine and Atmospheric Science. Although continuing education classes had been offered since 1926, the University formally founded the School of Continuing Studies in 1974.

Edward T. Foote II was inaugurated as the University's fourth president in 1981. Under his leadership, the University was selected to shelter a chapter of Phi Beta Kappa, the nation's oldest and most prestigious honor society. Three additional schools were also founded in the eighties: Architecture (1983), the Graduate School of International Studies (1983), and the School of Communication (1985). In 1997, the Graduate School of International Studies was reorganized to offer undergraduate degree programs and was renamed the School of International Studies. President Foote also led a capital campaign that raised over \$500 million, at the time the third largest campaign in American higher education.

Donna E. Shalala became the University's fifth president in 2001. At the time of her inauguration, the University celebrated its 75th anniversary. In 2002, the School of International Studies was disestablished and combined with the College of Arts and Sciences. The following year, the School of Continuing Studies was disestablished and its responsibilities were moved into the Division of Enrollments and Continuing Studies. In October 2003, the University announced *Momentum, The Campaign for the University of Miami*, a billion-dollar effort to accelerate progress, empower learning and discovery, and intensify our impact on people in our city, across the country, and around the world. In January 2006 the goal was increased to \$1.25 billion, and by the close of the campaign raised \$1.4 billion. In 2007, the University purchased Cedars Medical Center, a 560-bed facility located in the Miami Health District just across from the Miller School of Medicine. The facility is now known as the University of Miami Hospital

Overview:

The University is a private not-for-profit institution and has been classified by the Carnegie Commission as a Very High Research University. The University's 11 colleges and schools offer the following areas of study: 114 undergraduate, 108 master's, and 53 doctoral (49 research/scholarship and 4 professional practice).

Campuses:

Five UM campuses incorporate 205 University-owned buildings totaling 11.0 million gross square feet on over 500 acres of land.

Coral Gables: The Main campus, located on 225-acres in suburban Coral Gables, houses two colleges and seven schools with 127 buildings totaling 5.6 million gross square feet. Since 2005, approximately 620,000 square feet of new facilities have opened on the Coral Gables campus – the Robert and Judi Prokop Newman Alumni Center, Martha and Austin Weeks Music Library and Technology Center, the Communication International Building at the Francis L. Wolfson School of Communication, the Jorge M. Perez Architecture Center, the M. Christine Schwartz Center for Nursing and Health Studies, the Fieldhouse, expansion of the Alex Rodriguez Park at Mark Light Field, the Palley Pavilion at the Lowe Art Museum, the University Village (the first housing project in over 30 years which contains 800 student beds), and sixteen new townhomes for faculty and staff. Future projects include additions to the Wellness Center and Cox Science Building which are under construction and the new Student Activity Center and the Miguel B. Fernandez Entrepreneurship Building, which are in planning.

Medical Campus: The Leonard M. Miller School of Medicine campus consists of approximately 68-acres of owned and leased land within the 153-acre University of Miami/Jackson Memorial Medical Center complex. The medical center includes three University-owned hospitals that make up the University of Miami Health System (UHealth): University of Miami Hospital, Sylvester Comprehensive Cancer Center/UMHC – University of Miami Hospital & Clinics and Anne Bates Leach Eye Hospital, home to Bascom Palmer Eye Institute. Bascom Palmer was ranked the number one eye hospital in the country for the seventh year in a row in the 21st annual survey of "America's Best Hospitals" published in

U.S. News & World Report in July 2010; three other programs also ranked among the best. Two pediatric specialties made the list of “America’s Best Children’s Hospitals.” Our primary affiliated hospitals on the medical campus include Jackson Memorial Hospital, Holtz Children’s Hospital and the Miami VA Medical Center. Miller School of Medicine faculty conduct nearly 2,000 research projects in basic science and clinical care in 1.7 million square feet of research facilities. Construction is underway on the UM Life Science and Technology Park on 2 million square feet of space adjacent to the medical campus. The facility will bring together academia and industry for collaboration in bioscience research and innovation.

Rosenstiel School Campus: The Rosenstiel School of Marine and Atmospheric Science is one of the leading oceanographic research and education institutions in the nation. Located on an 18-acre waterfront campus on Virginia Key, Florida, in Biscayne Bay, the School’s main campus is part of a 65-acre marine research and education park that includes two U.S. Department of Commerce National Oceanic and Atmospheric Administration (NOAA) research laboratories and the MAST Academy, the Miami-Dade County magnet high school for marine science and technology. The Rosenstiel School operates CSTARS (Center for Southeastern Tropical Advanced Remote Sensing) located on Richmond Campus in south Miami-Dade County, which conducts research with remotely sensed data received from earth-orbiting satellite systems. The School also oversees the operation of an archeological field research and education facility on 112 acres at Little Salt Springs, located in North Port, Florida and a new subtropical island field station on a private 63-acre plot in Broad Key, Florida.

South Campus: The south campus, located ten miles southwest of Coral Gables, opened in 1986 on a 106-acre site. Its six buildings provide 77,918 gross square feet for the purpose of conducting research and development projects. In 1997 an additional 30 acres were acquired bringing the total area of the south campus to 136 acres.

Richmond Campus: The Richmond campus, established in 2001, is a 76-acre site near south campus. Research facilities for the Rosenstiel School’s Center for Southeastern Tropical Advanced Remote Sensing (CSTARS) and Richmond Satellite Operations Center (RSOC) are located on a portion of the new campus.

Other Facilities: The John J. Koubek Memorial Center located in the heart of Little Havana includes the historic Koubek mansion, with a seven-classroom annex, computer lab, and a 180-seat auditorium. The University also has a presence at IMG Academies in Bradenton, Florida where English as a Second Language, credit courses, and professional development opportunities are offered.

Presidents:

Bowman Foster Ashe	(1926-1952)
Jay F.W. Pearson	(1953-1962)
Henry King Stanford	(1962-1981)
Edward T. Foote II	(1981-2001)
Donna E. Shalala	(2001-)

Accreditation:

Institutional membership is maintained with the Commission on Colleges of the Southern Association of Colleges and Schools. In addition, the University of Miami holds accreditation from 22 other professional agencies that recognize specific programs:

- Accreditation Board for Engineering and Technology
- Accrediting Council on Education in Journalism and Mass Communications
- American Association of Museums
- American Association of Museum Directors
- American Bar Association
- American Chemical Society
- American College of Nurse-Midwives

American Medical Association Council on Medical Education and Association of American Medical Colleges, Liaison Committee on Medical Education
 American Music Therapy Association
 American Psychological Association
 Association to Advance Collegiate Schools of Business – International Association for Management Education
 Commission on Accreditation for Physical Therapist Education
 Commission on Accreditation of Athletic Training Education
 Commission on Accreditation of Healthcare Management Education
 Commission on Collegiate Nursing Education
 Commission on English Language Program Accreditation
 Council on Accreditation of Nurse Anesthesia Educational Programs
 Council on Education for Public Health
 Florida Department of Education
 Florida State Board of Nursing
 National Architectural Accrediting Board, Inc.
 National Association of Schools of Music

Faculty and Academic Life:

Of the full-time regular faculty, 98 percent hold a doctorate or other terminal degree, and 91% of all full-time faculty have a terminal degree. Of the full-time tenure-track faculty who are eligible for tenure, 76 percent are tenured. The student-to-faculty ratio is approximately 11 to 1. Over 50 percent of classes for degree undergraduates have 15 or fewer students; over 75 percent have 25 or fewer students.

Freshman Dual Honors Programs:

UM offers dual-degree and honors programs, combining undergraduate and graduate study in exercise physiology, Latin American studies, law, marine geology, medicine, and physical therapy. For more information on these programs please visit our website at: www.miami.edu/dualdegree

New Freshman Standings:

Nearly 50% of new freshmen graduated in the top 5% of their high school class, while over two-thirds graduated in the top 10% of their high school class. Mean SAT was 1293.

Honors Program and Honors Societies:

Approximately 1,100 students participate in the Honors Program. The following 57 academic honor societies have chapters at the University:

- | | |
|---|---|
| Alpha Epsilon Delta (Pre-Med) | Order of the Coif (Law) |
| Alpha Epsilon Lambda (General Scholarship) | Phi Alpha Delta (Pre-Legal) |
| Alpha Epsilon Rho (Broadcasting) | Phi Alpha Epsilon (Architectural Engineering) |
| Alpha Eta Mu Beta (Biomedical Engineering) | Phi Alpha Theta (History) |
| Alpha Kappa Delta (Sociology) | Phi Beta Delta (International Scholarship) |
| Alpha Kappa Psi (Business) | Phi Beta Kappa (General Scholarship) |
| Alpha Lambda Delta (Freshman General Scholarship) | Phi Kappa Phi (General Scholarship) |
| Alpha Omega Alpha (Medicine) | Phi Lambda Pi (General Scholarship) |
| Alpha Phi Sigma (Criminology) | Phi Sigma Tau (Philosophy) |
| Alpha Pi Mu (Industrial Engineering) | Pi Delta Phi (French) |
| Alpha Rho Chi (Architecture) | Pi Kappa Lambda (Music and Music Education) |
| Beta Alpha Psi (Accounting) | Pi Mu Epsilon (Mathematics) |
| Beta Beta Beta (Biology) | Pi Sigma Alpha (Political Science) |

Beta Gama Sigma (Business)	Pi Tau Sigma (Mechanical Engineering)
Chi Epsilon (Civil Engineering)	Psi Chi (Psychology)
Chi Epsilon Pi (Meteorology)	Rho Lambda (Leadership)
Delta Phi Alpha (German)	Rho Rho Rho (Marine Science)
Eta Kappa Nu (Electrical/Computer Engineering)	Sigma Alpha Iota (Music)
Eta Sigma Phi (Classics)	Sigma Delta Pi (Spanish)
Gamma Sigma Alpha (Academic - Greek)	Sigma Gamma Epsilon (Geological Sciences)
Gamma Theta Upsilon (Geography)	Sigma Pi Sigma (Physics)
Golden Key National Honor Society (General Scholarship)	Sigma Tau Delta (International English)
Honors Students' Association (General Scholarship)	Sigma Theta Tau (Nursing)
Iron Arrow (General Scholarship/Leadership)	Tau Beta Pi (Engineering)
Mortar Board (General Scholarship/Leadership)	Tau Beta Sigma (Music)
National Society of Collegiate Scholars (General Scholarship)	Tau Sigma Delta (Architecture)
Omicron Delta Epsilon (Economics)	Theta Alpha Kappa (Religious Studies)
Omicron Delta Kappa (General Scholarship/Leadership)	Upsilon Pi Epsilon (Electrical & Computer Engineering)
Order of Omega (Leadership)	

Greek Fraternities and Sororities:

More than 1,200 degree undergraduate students are members of the Greek Life community, including upper-class new members. Because the University defers membership in a sorority or fraternity for first-year students until after the student has earned at least 12 hours of academic credit, first-year students are not included in this count. The following 33 fraternities and sororities have chapters at the University:

Fraternities:

Alpha Epsilon Pi
 Alpha Phi Alpha
 Alpha Sigma Phi
 Beta Theta Pi
 Delta Epsilon Psi
 Kappa Alpha Psi
 Lambda Chi Alpha
 Lambda Theta Phi
 Omega Psi Phi
 Phi Beta Sigma
 Phi Delta Theta
 Phi Iota Alpha
 Pi Kappa Alpha
 Pi Kappa Phi
 Sigma Alpha Epsilon
 Sigma Alpha Mu
 Sigma Chi
 Sigma Lambda Beta
 Sigma Phi Epsilon
 Zeta Beta Tau

Sororities:

Alpha Delta Pi
 Alpha Kappa Alpha
 Delta Delta Delta
 Delta Gamma
 Delta Phi Epsilon
 Delta Sigma Theta
 Kappa Kappa Gamma
 Lambda Theta Alpha
 Sigma Delta Tau
 Sigma Gamma Rho
 Sigma Lambda Gamma
 Zeta Phi Beta
 Zeta Tau Alpha

International Education and Exchange Programs:

UM semesters on location in Prague, the Galilee, and the Galapagos; exchange-partner universities in over 33 countries for the year, semester, or summer; and UM faculty-led programs during intersession, spring break, and summer.

Post Baccalaureate Plans:

33% of May 2010 graduating seniors reported plans to attend graduate school this fall.

Alumni:

UM alumni live in all 50 states and in 148 foreign countries; almost 74,500 reside in Florida, including over 40,000 in Miami-Dade County. There are just over 170,500 alumni in UM's history.

Sports:

The Hurricanes compete in Division I of the National Collegiate Athletic Association with seven men's and ten women's sports. In 2004 UM became a member of the Atlantic Coast Conference (ACC) after having previously been a member of the Big East Conference.

Men's competition includes baseball (1982, 1985, 1999, 2001 NCAA champions), basketball (NCAA appearances in 1998, 1999, 2000; Sweet 16 in 2002 and 2008), cross country, football (1983, 1987, 1989, 1991, 2001 NCAA champions), tennis (1943-45, 1987 NCAA singles champions; 1945 and 1970 NCAA doubles champions; 25 NCAA appearances since 1977 including Sweet 16 in 2009), indoor track and field (1998 NCAA individual champion; 2006 ACC individual champion), and outdoor track and field (1996 NCAA individual champion; 2006 ACC individual champions).

Women's competition includes basketball (13 postseason appearances), cross country, golf (1970, 1972, 1977, 1978, 1984 national team champions; 1959, 1965, 1972, 1983 national individual champions), rowing, soccer (NCAA appearances in 2007 and 2008), swimming and diving (1975 and 1976 national team champions; 1974-78, 1989, 1999-2000 national individual champions; 2005 and 2006 ACC individual champions), tennis (1977, 1986 national doubles champions; NCAA Elite 8 in 2004, 2007, 2009, and 2010; NCAA runner-up in 2006 and 2009; 2007 individual singles champion), indoor track and field (1992, 1995, 2005, 2007-09 NCAA individual champions; 2005 and 2006 ACC Champions, and third at 2005 NCAA Championship), outdoor track and field (1993-95, 1999, and 2004-06 NCAA individual champions; 2005 and 2006 ACC Champions and 7th at 2006 NCAA Meet), and volleyball (2002 NCAA Sweet 16, 2010 NCAA Tournament).

Computing Facilities:

The Ungar Computing Center (central facility) is equipped with an Enterprise Server and a number of smaller machines. There are over 60 computer labs located in the residential colleges, libraries, schools, and colleges. The University's network provides connections in each dorm room with Internet and Internet2 access. UM is an equity member of the Florida LambdaRail (FLR) providing 10 Gb/s connectivity throughout the state, and to the National LambdaRail (NLR). Wireless networks on the 3 main campuses complement the extensive wired network. myUM is UM's interactive online information source for personalized University-related information including course registration, grades, financial aid and billing, parking, dining, and more.

Development:

In FY 10, contributions reached \$159.4 million in total private cash, gifts, and grants; and in FY 09, UM ranked 37th among the research, doctoral, masters, liberal arts, and specialized private and public universities reporting to the Council for Aid to Education.

Budget:

The budget for 2010-11 is \$2.5 billion, with \$1.7 billion projected for the medical campus. At the end of the FY 10 the endowment for the University was \$618.2 million.

Degree Programs:

Bachelor of Architecture (B.Arch.)
Bachelor of Arts (A.B.)
Bachelor of Arts in Marine Affairs (B.A.M.A.)
Bachelor of Arts in Music (B.A.M.)
Bachelor of Business Administration (B.B.A.)
Bachelor of Fine Arts (B.F.A.)
Bachelor of General Studies (B.G.S.)
Bachelor of Liberal Arts (B.L.A.)
Bachelor of Music (B.M.)
Bachelor of Science (B.S.)
Bachelor of Science in Aerospace Engineering (B.S.A.S.E.)
Bachelor of Science in Architectural Engineering (B.S.A.E.)
Bachelor of Science in Biomedical Engineering (B.S.B.E.)
Bachelor of Science in Business Administration (B.S.B.A.)
Bachelor of Science in Civil Engineering (B.S.C.E.)
Bachelor of Science in Communication (B.S.C.)
Bachelor of Science in Computer Engineering (B.S.Cp.E.)
Bachelor of Science in Education (B.S.Ed.)
Bachelor of Science in Electrical Engineering (B.S.E.E.)
Bachelor of Science in Engineering Science (B.S.E.S.)
Bachelor of Science in Environmental Engineering (B.S.En.E.)
Bachelor of Science in Health Science (B.S.H.S.)
Bachelor of Science in Industrial Engineering (B.S.I.E.)
Bachelor of Science in Marine and Atmospheric Science (B.S.M.A.S.)
Bachelor of Science in Mechanical Engineering (B.S.M.E.)
Bachelor of Science in Nursing (B.S.N.)

Artist Diploma (A.D.)
Master of Architecture (M.Arch.)
Master of Architecture in Suburb and Town Design (M.A.S.T.)
Master of Arts (M.A.)
Master of Arts in Liberal Studies (M.A.L.S.)
Master of Business Administration (M.B.A.)
Master of Fine Arts (M.F.A.)
Master of Laws in Inter-American Law (LL.M.A.)
Master of Laws in Comparative Law (LL.M.C.L.)
Master of Laws in Estate Planning (LL.M.E.)
Master of Laws in International Law (LL.M.I.)
Master of Laws in Ocean and Coastal Law (LL.M.O.)
Master of Laws in Real Property Development (LL.M.P.)
Master of Laws in Taxation (LL.M.T.)
Master of Music (M.M.)
Master of Professional Accounting (M.P.Acc.)
Master of Professional Science (M.P.S.)
Master of Public Administration (M.P.A.)
Master of Public Health (M.P.H.)
Master of Real Estate Development & Urbanism (M.R.E.D.U.)
Master of Science (M.S.)
Master of Science in Architectural Engineering (M.S.A.E.)
Master of Science in Biomedical Engineering (M.S.B.E.)
Master of Science in Civil Engineering (M.S.C.E.)
Master of Science in Education (M.S.Ed.)
Master of Science in Electrical and Computer Engineering (M.S.E.C.E.)
Master of Science in Industrial Engineering (M.S.I.E.)

Master of Science in Mechanical Engineering (M.S.M.E.)
Master of Science in Music Engineering Technology (M.S.M.E.T.)
Master of Science in Nursing (M.S.N.)
Master of Science in Public Health (M.S.P.H.)
Master of Science in Taxation (M.S.Tax.)

Specialist in Education (Ed.S.)
Specialist in Music Education (M.Spec.)

Doctor of Education (E.D.D.)
Doctor of Medicine (M.D.)
Doctor of Musical Arts (D.M.A.)
Doctor of Philosophy (Ph.D.)
Doctor of Philosophy/Doctor of Medicine (Ph.D./M.D.)
Doctor of Physical Therapy (D.P.T.)
Doctor of Nursing Practice (D.N.P.)
Juris Doctor (J.D.)

Schools and Colleges:

School of Architecture: The School of Architecture, founded in 1983, offers accredited professional undergraduate and graduate degrees in architecture and post-graduate degrees in architecture, urban design and real estate development. Continuing its topical emphasis on new urbanism, classical and traditional architecture, and 20th century and contemporary modernism, the School has expanded its focus to several new areas. These include health and the built environment, with health care design studios and courses and a continuing research partnership with faculty in the Miller School of Medicine; tropical and subtropical coastal design, building on faculty experience in locations such as Santo Domingo, Mumbai, Cape Town, and Barranquilla; the new Certificate in Historic Preservation, and the new Master of Real Estate Development and Urbanism (MRED+U), an interdisciplinary one-year graduate program engaging faculty from the Schools of Business Administration and Law as well as Architecture.

The Center for Urban and Community Design (CUCD), the School's outreach program, provides students with hands-on experience in community improvement nationally and internationally. The Design-Build Studio is an upper-level opportunity for students to collaboratively design and build a small structure. More than half of enrolled students participate in study-abroad programs in Europe, Asia, the Caribbean basin, and Latin America. The School sponsors fall, spring and summer semester programs in Rome, located in our new Rome Center, providing an intensive experience in design, theory, and history of architecture. Facilities at the School include studio workspace for each student, an architecture reference library linked to university-wide resources, the New Urbanism Archive, a computer laboratory, a model shop, and the Jorge M. Perez Architecture Center housing Glasgow Hall and the Korach Architecture Gallery.

College of Arts and Sciences: Founded at the University's inception in 1926 and housed in 22 buildings located throughout the Coral Gables campus, the College of Arts and Sciences enrolls over 4,000 undergraduate and almost 600 graduate students in 24 departments and 8 interdisciplinary programs. Eighteen departments offer graduate degrees in the fine arts, natural sciences, humanities, and social sciences. Several of the majors available to undergraduates in the College are offered in partnership with other schools at the University, including economics, offered in cooperation with the School of Business, and microbiology and biochemistry with the Miller School of Medicine, and musical theatre with the Frost School of Music. Incoming new freshmen who meet specific academic criteria may be granted simultaneous admission into the undergraduate degree program of the College of Arts and Sciences and into of the graduate degree programs in medicine or Latin American studies. Among the almost 450 full-time faculty—who teach courses to all undergraduate students at the University—are award-winning teachers and research scholars, recognized nationally and internationally in their disciplines. The faculty of the College of Arts and Sciences include editors of prominent journals, fellows of numerous professional societies, prize-winning creative writers, and members of important government research review and

advisory boards. The College also provides numerous community outreach activities, including student musical theatre and drama productions at the Jerry Herman Ring Theatre and Alvin Sherman Family Stage; student, faculty, and visiting artist exhibitions in the College of Arts and Sciences Gallery and the Project Space in the design district of downtown Miami; lecturers and other educational programs sponsored by the Center for the Humanities; volunteer activities in the public schools, hospitals and community clinics for developmentally disabled children; technology workshops for Miami-Dade public school teachers sponsored by the Department of Modern Languages Laboratory; and a series of programs, hosted by the Biology and Psychology Departments and funded by various federal agencies and private foundations, to encourage the participation of minorities in scientific careers through research opportunities for pre-college and undergraduate students; and career development opportunities for high-school and community-college faculty.

School of Business Administration: The School of Business Administration was founded in 1929 and is accredited by AACSB International (the Association to Advance Collegiate Schools of Business). The School offers degrees at the bachelor's, master's and doctoral levels, as well as non-degree executive education programs. In addition to the full-time master's programs, the School offers an Executive M.B.A. (EMBA) program which is among the largest of its kind in the United States. Now in its 38th year, the EMBA program is offered on weekends and evenings on the main campus in Coral Gables and off-campus in Palm Beach, Florida and San Juan, Puerto Rico. The School reflects the richness of a culturally diverse international community and provides an environment in which the creation and dissemination of business knowledge flourishes. The School continues to build on its outstanding faculty, to enhance its position as a premier school of business.

School of Communication: The School of Communication, founded in 1985, seeks to prepare thinking and responsible communication professionals for a global society. The School currently enrolls nearly 1,100 undergraduates and over 140 graduate students with a full-time faculty of 58 scholars and professionals. Major undergraduate programs of study in the School include electronic media and broadcast journalism, journalism, visual journalism, advertising, public relations, motion pictures, media management, and communication studies. Graduate programs of study at the master's level include communication studies; public relations; broadcast, print, and multimedia journalism; motion pictures; and a Spanish-language journalism program. In addition, the School offers a doctoral program in communication with emphases in film studies, journalism, communication studies, or public relations. Its broad range of student facilities and activities include the free speech "Common Ground" courtyard, a sound stage, digital television and radio studios, broadcast uplink capability, all digital post-production facilities, moving image archives including over 6,500 classic motion pictures and television programs, digital multimedia labs, a working converged news bureau, video conferencing facilities, an audio production lab, a state-of-the-art motion picture theater, extensive online resources, and a nationally recognized debate team. The School houses the Knight Center for International Media dedicated to the production of compelling visual media to address global challenges. In addition the School has placement and career development resources and services that provide excellent opportunities for students to secure professional internships while they are in school and professional positions when they graduate.

School of Education: The mission of the School of Education (SOE) is to "...engage in scholarly research and to prepare leaders in the study and promotion of family, school, and community well-being. Our research, teaching, and service integrate the physical, emotional, intellectual, organizational, and social well-being of diverse populations." Founded in 1929, the SOE houses the departments of educational and psychological studies, kinesiology and sport sciences, and teaching and learning.

The Department of Educational and Psychological Studies offers an undergraduate degree in human and social development. The Department also offers graduate degree programs in four areas: research, measurement, and evaluation; higher education; community and social change; and counseling psychology. The research, measurement, and evaluation program offers an M.S.Ed. and a Ph.D. degree. The community and social change program offers an M.S.Ed. The higher education program offers an M.S.Ed. and a doctoral degree in Education (Ed.D.). The Department's Ph.D. program in counseling psychology is accredited by the American Psychological Association (APA). The counseling master's degree (M.S.Ed.) specialties lead to professional licensure in Mental Health Counseling and Marriage and

Family Therapy in Florida; and the doctoral Counseling Psychology program leads to licensure as a psychologist.

The Department of Kinesiology and Sport Sciences offers undergraduate majors in exercise physiology, athletic training, and sports administration. The undergraduate athletic training major is nationally accredited by the Commission on Accreditation of Athletic Training Education (CAATE). Undergraduate minors are offered in sports medicine, exercise physiology, sport administration, and leadership. Master's degree programs are offered in exercise physiology; exercise physiology with a concentration in strength and conditioning; sports medicine with a concentration in athletic training; and sport administration. The sport administration master's program is one of the 27 graduate programs in the U.S. approved by the North American Society for Sport Management (NASSM). The Department offers a certificate in women's health and a Ph.D. program in exercise physiology.

The Department of Teaching and Learning offers undergraduate majors in elementary education and secondary education (including English, social sciences, biology, chemistry and mathematics). All TAL majors require a second affiliated major and are approved by the Florida Department of Education for teacher certification in their respective fields. The Department also offers a minor in special education and a minor that fulfills the state's Professional Training Option within an alternative certification track. Master's and Educational Specialist degree programs are offered in early childhood special education, and an M.S.Ed. is offered in education and social change. The Department's research doctoral program offers specializations in Language and Literacy Learning in Multilingual Settings, Mathematics/Science Education, and Special Education.

Structured professional internships, professional development schools, and an on-campus technology lab provide students in all majors with outstanding unique experiential learning opportunities.

College of Engineering: Founded in 1947, the College of Engineering offers degrees in aerospace, architectural, biomedical, civil, computer, electrical, environmental, industrial, and mechanical engineering, as well as engineering science. The College of Engineering offers master's and doctoral degrees in a number of disciplines, with several specializations in each field of study. Consistent with the tradition of collaboration among the University of Miami schools and colleges, engineering students participate in a number of interdisciplinary programs, including partnerships between the biomedical engineering program and the School of Medicine (premedical concentration); the architectural engineering program and the School of Architecture; the audio engineering program and the School of Music; and the industrial engineering program and the School of Business Administration. The College boasts an impressively diverse student body, consisting of students from nearly 50 different countries and a 56% minority group including 34% Hispanic and 7% Black. Females represent 26% of the students (compared to an 18% national average, according to the most recent statistics from the American Society for Engineering Education). Engineering students enjoy active participation in a number of honor societies and professional organizations that include Engineers without Borders, Society of Women Engineers, and Society of Professional Hispanic Engineers, among others. The College also offers ViAComp, a Virtual Academic Computing platform that offers students remote access to educational software programs anytime and anywhere they can open an Internet connection, including an iPhone. In addition, the College has several centers such as the Biomechanics Research Group, Manufacturing Research Institute, Perry Ellis International Logistics Research Institute, and the University of Miami Industrial Assessment Center (which conducts energy, waste, and productivity evaluations for small to medium-sized manufacturers and is one of only 26 university-based centers across the nation that is funded by the US Department of Energy). The College is also establishing a number of student and faculty exchange programs with engineering schools throughout the Americas, Middle East, Europe, Asia, and Australia. Industrial partnerships are likewise being promulgated to provide real-world capstone experiences and relevant research activities. The College has extensive strength and experience in three research thrust areas: healthcare and technobiology (i.e., application of technology to biomedical issues), informatics and risk (i.e., modeling and evidence-based decision making), and sustainable systems (i.e., energy and environment). Our distinguished faculty includes several National Science Foundation early career awardees and two members of the prestigious U. S. National Academy of Engineering.

Frost School of Music: The Frost School of Music, founded in 1926, is one of the largest schools of its kind in a private institution and one of the most comprehensive in all of higher learning. With nearly 80 full-time and 45 part-time faculty, an undergraduate student body of approximately 430 undergraduate students, and nearly 240 graduate students, the School awards the Bachelor of Music degree with majors in 10 areas and the Bachelor of Science in Music Engineering. The Bachelor of Arts in music degree is a non-professional degree designed for talented musicians who wish to pursue a broad liberal arts education. The Master of Music is offered with majors in 13 areas. The Master of Arts is offered in the world's first Arts Presenting Program. The Master of Science degree is offered in music engineering technology. The Doctor of Philosophy degree is offered in music education, and the Doctor of Musical Arts degree is offered in five areas. A joint degree program with the School of Law offers a Doctor of Jurisprudence and a Master of Music in Music Business and Entertainment Industries. The Frost School offers four undergraduate minors, including *The Bruce Hornsby Creative American Music Program*, a minor in songwriting. The *Henry Mancini Institute* is housed within the School, and offers intensive performing and learning experiences across a broad spectrum of musical genres including film, world, jazz and pop-inflected musical styles. The School's facilities include the Maurice Gusman Concert Hall, The L. Austin Weeks Center for Recording and Performance, which contains the Victor E. Clarke Recital Hall and a state of the art recording studio (one of two professional quality studios in the School), the 28,000 square-foot Austin and Marta Weeks Music Library and Technology Center, containing six music technology labs, and an array of other rehearsal and teaching facilities. Many of the School's faculty have gained international recognition in their respective fields. Several of the School's premier performing ensembles have won national awards and engage in touring within and outside the United States. The School has exchange programs with the Sibelius Academy in Helsinki, Finland; Bucks New University in Buckinghamshire, England; the Western Australian Academy of Performing Arts at Edith Cowan University in Perth, Australia; and a five-week summer opera program in Salzburg, Austria. During the academic year the School presents more than 300 forums, student and faculty recitals, concerts, lectures, master classes, and guest artist performances.

As a major educational and cultural resource for South Florida, the Frost School maintains a substantive philosophical and proactive commitment to serving a variety of constituencies by way of its numerous outreach programs, including Festival Miami; The Stamps Family Charitable Foundation Distinguished Visitor Series; Grammy in the Schools: Careers in Music; The Ress Family Hospital Performance Project; Friends of Music, Inc.; Honor Band and Honor Choir; Dance Preparatory; Keyboard Preparatory; Strings Academy; UM MusicTime; Music Education Days; and summer music camps for children and students from 2 months to 19 years old. *Frost MusicReach* is a new outreach program that pairs freshman music majors with at-risk seventh graders for four years of substantive and consistent mentoring. The School of Music has active student chapters of a number of professional music organizations.

Graduate School: The University of Miami first approved courses for graduate work in 1941. In the late 1950s the University initiated study to award the doctorate, and the first degrees at this level were approved in 1959. Currently, graduate student enrollment stands at over 3,000. The University and its over 150 master's and doctoral programs are fully accredited by the Southern Association of Colleges and Schools, as well as by a number of other independent accrediting agencies. The faculty of the Graduate School currently consists of nearly 1,300 members within the University. The Graduate School sets all policies for graduate education and oversees the quality of graduate programs. Its operation is conducted by the Graduate Council and its standing Graduate Faculty Committees. The mission of the Graduate School is to promote graduate education, scholarship, and research; to support individuals, departments, and programs in the pursuit of excellence; to foster innovation, multidisciplinary, and interdisciplinary activities; and to maintain high ethical and academic standards in graduate studies.

Law School: Founded in 1926, the University of Miami School of Law presently enrolls over 1,500 candidates for either J.D. or LL.M. degrees and has over 18,500 alumni worldwide. The J.D. program enrolls over 1,505 students from more than 365 colleges and universities throughout the United States. Of the entering J.D. students, approximately 42 percent are women, 31 percent are members of minority groups, and 47 percent are from outside Florida. Close to 50 percent speak more than one language. The School offers graduate programs in International Law (specializations in Inter-American

Law, International Arbitration, International Law, and U.S. and Transnational Law for Foreign Lawyers), Ocean and Coastal Law, Taxation, Estate Planning, and Real Property Development, the latter offered online as well as on-campus. The graduate program in International Law and its four different specializations enroll over 70 foreign lawyers from nearly 35 nations. The School also offers several joint degree programs. It is the only law school to offer a J.D./Master's in Music Administration, in addition to J.D./M.B.A., J.D./Master's in Marine Affairs, or Public Health, J.D./LL.M. in Tax, International Law, Ocean and Coastal Law, or Real Property Development, and a J.D./M.B.A./LL.M. in Tax. The School's renowned faculty includes approximately 70 full-time professors and over 100 distinguished lawyers and judges who serve as adjunct professors. In addition to its extensive curriculum, the School offers numerous domestic and international externship programs and foreign exchange programs in Germany, Switzerland, Israel, and France. The Law Library is one of the country's leading legal research libraries, with close to 630,000 bound volumes and volume equivalents. It has special collections in taxation, estate planning, ocean law, and foreign and international law, including one of the most comprehensive Latin American and Caribbean collections in the U.S. The School is regularly ranked among the top law schools by *Hispanic Business Magazine* and *U.S. News and World Report* for Tax Programs, and its alumni are regularly featured in *Super Lawyers Magazine*. The School is accredited by the American Bar Association, is a member of the Association of American Law Schools, and has a chapter of the national law student honorary society, the Order of the Coif.

Medical School: The University of Miami Leonard M. Miller School of Medicine, has grown rapidly in both size and reputation, earning international acclaim for research, clinical care, and biomedical innovations. The school has more than 1,400 full-time clinical and basic science faculty members and an additional 1,350 professionals from the community serving as voluntary faculty in various departments. Along with the M.D. degree, the school offers two specialized B.S./M.D. programs, a combined M.D./Ph.D. program, an M.D./M.B.A. program, a newly created M.D./M.P.H. program, graduate degrees in ten areas, postdoctoral programs, and continuing medical education courses.

Located north of downtown Miami near the Civic Center in the Miami Health District, the school's campus consists of approximately 68-acres of owned and leased land within the 153-acre University of Miami/Jackson Memorial Medical Center complex. Each year the University of Miami Health System's more than 800 faculty physicians have more than one million patient encounters in primary care and 100 medical specialties and sub-specialties.

University of Miami Hospital is the flagship hospital of the University of Miami Health System (UHealth). The University also owns two other hospitals: Sylvester Comprehensive Cancer Center/UMHC – University of Miami & Clinics and Anne Bates Leach Eye Hospital, home of Bascom Palmer Eye Institute. For the seventh year in a row, Bascom Palmer was named the number one eye hospital in the country by *U.S. News & World Report* in its annual "America's Best Hospitals" issue. Three additional specialties were also ranked among the nation's best. Two pediatric specialties made the list of "America's Best Children's Hospitals."

In addition to the three University-owned hospitals, there are also three primary hospitals affiliated with UHealth: Jackson Memorial Hospital, the primary teaching hospital for the medical school; Holtz Children's Hospital; and the Miami VA Medical Center. There are also outpatient clinics across Miami-Dade, Broward, Palm Beach, Monroe, and Collier counties.

Other clinical and research programs include the John P. Hussman Institute for Human Genomics, the Interdisciplinary Stem Cell Institute, the Comprehensive AIDS Program, the Miami Transplant Institute, The Miami Project to Cure Paralysis, the Diabetes Research Institute, the Mailman Center for Child Development, and many more. Also located in the medical complex is the Louis Calder Memorial Library, the largest medical resource library in South Florida.

Fully accredited by the Liaison Committee on Medical Education of the Association of American Medical Colleges, the Miller School of Medicine is committed to graduating first-rate physicians and leads the nation in establishing innovative curriculum and admissions policies. Among the many student activities that reflect the commitment to community service are the various health fairs put on by the

Mitchell Wolfson, Sr., Department of Community Service (DOCS) Program. The students and volunteer physicians coordinate events in numerous medically underserved communities each year, in addition to coordinating a weekly volunteer clinic in Miami.

School of Nursing and Health Studies: A tradition of academic leadership and community service has characterized nursing at the University of Miami since 1948, when it became the first collegiate nursing program in South Florida. The School of Nursing and Health Studies has a commitment to academic excellence, the advancement of nursing and health science professions, and service to society through innovative and socially responsive programs of health education and research. All programs emphasize culturally competent care, which recognizes an individual's unique health beliefs and practices.

The School has offered the master's degree since 1976, and the doctoral program admitted its first students in 1985. In February 2005, the school expanded its curriculum to include UM's Health Science program and changed its name from the School of Nursing to the School of Nursing and Health Studies. Situating the Health Science program at the school enables the University of Miami to integrate course offerings for individuals who wish to work in a variety of health care fields. The School's curriculum includes programs leading to the B.S.N., M.S.N., D.N.P., and Ph.D. in nursing degrees as well as the B.S. in Health Science degree. Nursing programs are accredited by the Commission on Collegiate Nursing Education, American College of Nurse-Midwives, and Council on Accreditation of Nurse Anesthesia Education Programs. The school offers an Accelerated B.S.N. program for individuals who hold undergraduate degrees in other fields and a B.S.N. program for individuals who are already employed as R.N.s. At the graduate level, the School offers a research-based Ph.D. program, a clinically focused Doctor of Nursing Practice (D.N.P. program), and M.S.N. programs in the following specialties: Nurse Anesthesia, Family Practitioner, Adult-Acute Care Practitioner, and Nurse Midwifery. Post-master's certificate programs are offered in Family Nurse Practitioner, Adult-Acute Care Practitioner, Nurse Midwifery, and education.

The world-class M. Christine Schwartz Center for Nursing and Health Studies opened on the Coral Gables campus in December 2006. The building offers state-of-the-art classrooms, research facilities, and the International Academy for Clinical Simulation and Research where high-fidelity patient simulation enables students to improve their clinical and critical thinking skills. Students obtain clinical experiences in a variety of agencies throughout Miami-Dade, Broward, Palm Beach, and Monroe counties, including hospitals, primary health care centers, migrant camps, and health departments. The University of Miami Beta Tau chapter of Sigma Theta Tau, The International Honor Society of Nursing, invites qualified students to join the second largest nursing organization in the United States. Students are also encouraged to join the National Student Nurses Association and the Black Student Nurses Association, which promote the ideals and aspirations of the nursing profession.

Rosenstiel School of Marine & Atmospheric Science: The Rosenstiel School of Marine & Atmospheric Science is one of the leading oceanographic research and education institutions in the nation. Known originally as the University's marine laboratory, it was founded in 1943. It evolved into the Institute for Marine Science in 1961, and eight years later became the Rosenstiel School of Marine & Atmospheric Science within the University of Miami.

The Virginia Key campus has grown to include modern research and teaching facilities, a dedicated academic library, and an internationally recognized Marine Invertebrate Museum. The Rosenstiel School also operates a state-of-the-art 96-foot catamaran research vessel, the *F.G. Walton Smith*, and pioneered the first-ever marine and atmospheric laboratory aboard a cruise ship, Royal Caribbean Cruise Lines' *Explorer of the Seas*.

CSTARS (Center for Southeastern Tropical Advanced Remote Sensing), located on the Richmond campus in south Miami-Dade county, is the Rosenstiel School's newest facility conducting research with remotely sensed data received from earth-orbiting satellite systems. This state-of-the-art real-time reception and analysis facility provides data for environmental monitoring from 15 commercial satellites, available 24/7. The predictive power concentrated on this 78-acre campus is helping to provide vital, life-saving

information regarding hurricanes, typhoons, freak waves and other natural and manmade disasters, including monitoring of the Deepwater Horizon oil spill.

As the only subtropical institute of its kind in the continental United States, the Rosenstiel School's more than 100 faculty members, over 240 graduate students, over 300 undergraduate students and over 250 support staff comprise a robust academic community. Through excellence in applied and basic marine and atmospheric research and linking these results to policy, the Rosenstiel School sheds light on today's most pressing environmental issues. Scientists and students at Rosenstiel study a wide range of important topics, many of which relate to the environment and humanity's growing impacts on the natural world. They are at the forefront of research on subjects such as ocean and atmospheric circulation and how they affect the movement of pollutants, global warming, fisheries, coral reefs, sea level rise, oceans and human health, marine policy, and hurricane development.

Through course work and research, Rosenstiel School students obtain graduate degrees in applied marine physics, marine affairs and policy, marine and atmospheric chemistry, marine biology and fisheries, marine geology and geophysics, and meteorology and physical oceanography. The division of marine affairs and policy at the Rosenstiel School and the University of Miami School of Law offer a joint degree in law and marine affairs. Upon completion of this program, a student earns a Juris Doctor degree from the School of Law and a Master of Arts degree in marine affairs and policy from the Rosenstiel School. The division of marine affairs and policy also offers an interdisciplinary Master of Science degree with an integrated track in science and policy, providing students with a strong science background the opportunity to build careers in marine resource management.

The Rosenstiel School offers undergraduate coursework in Marine Science, Meteorology, and Marine Affairs programs (previously offered jointly with the College of Arts and Sciences). Students may study toward the following degrees: Bachelor of Arts (B.A.) degree in marine affairs and policy, Bachelor of Science (B.S.) degrees in marine science/biology, marine science/chemistry, marine science/geology, marine science/physics, and meteorology. There are two options leading to a B.S. in meteorology: a double-major in meteorology and applied mathematics or a meteorology major with a math minor and one additional minor selected from chemistry, physics, computer science, or biology. In addition to the traditional bachelor's degree programs, students may also elect a five-year B.A./Master of Arts (M.A.) in marine affairs and policy and a five-year B.S./Master of Science (M.S.) in geological sciences/marine geology. Undergraduate students in these programs have opportunities to participate in research projects at the Rosenstiel School, working alongside world-class scientists in laboratories and in the field.

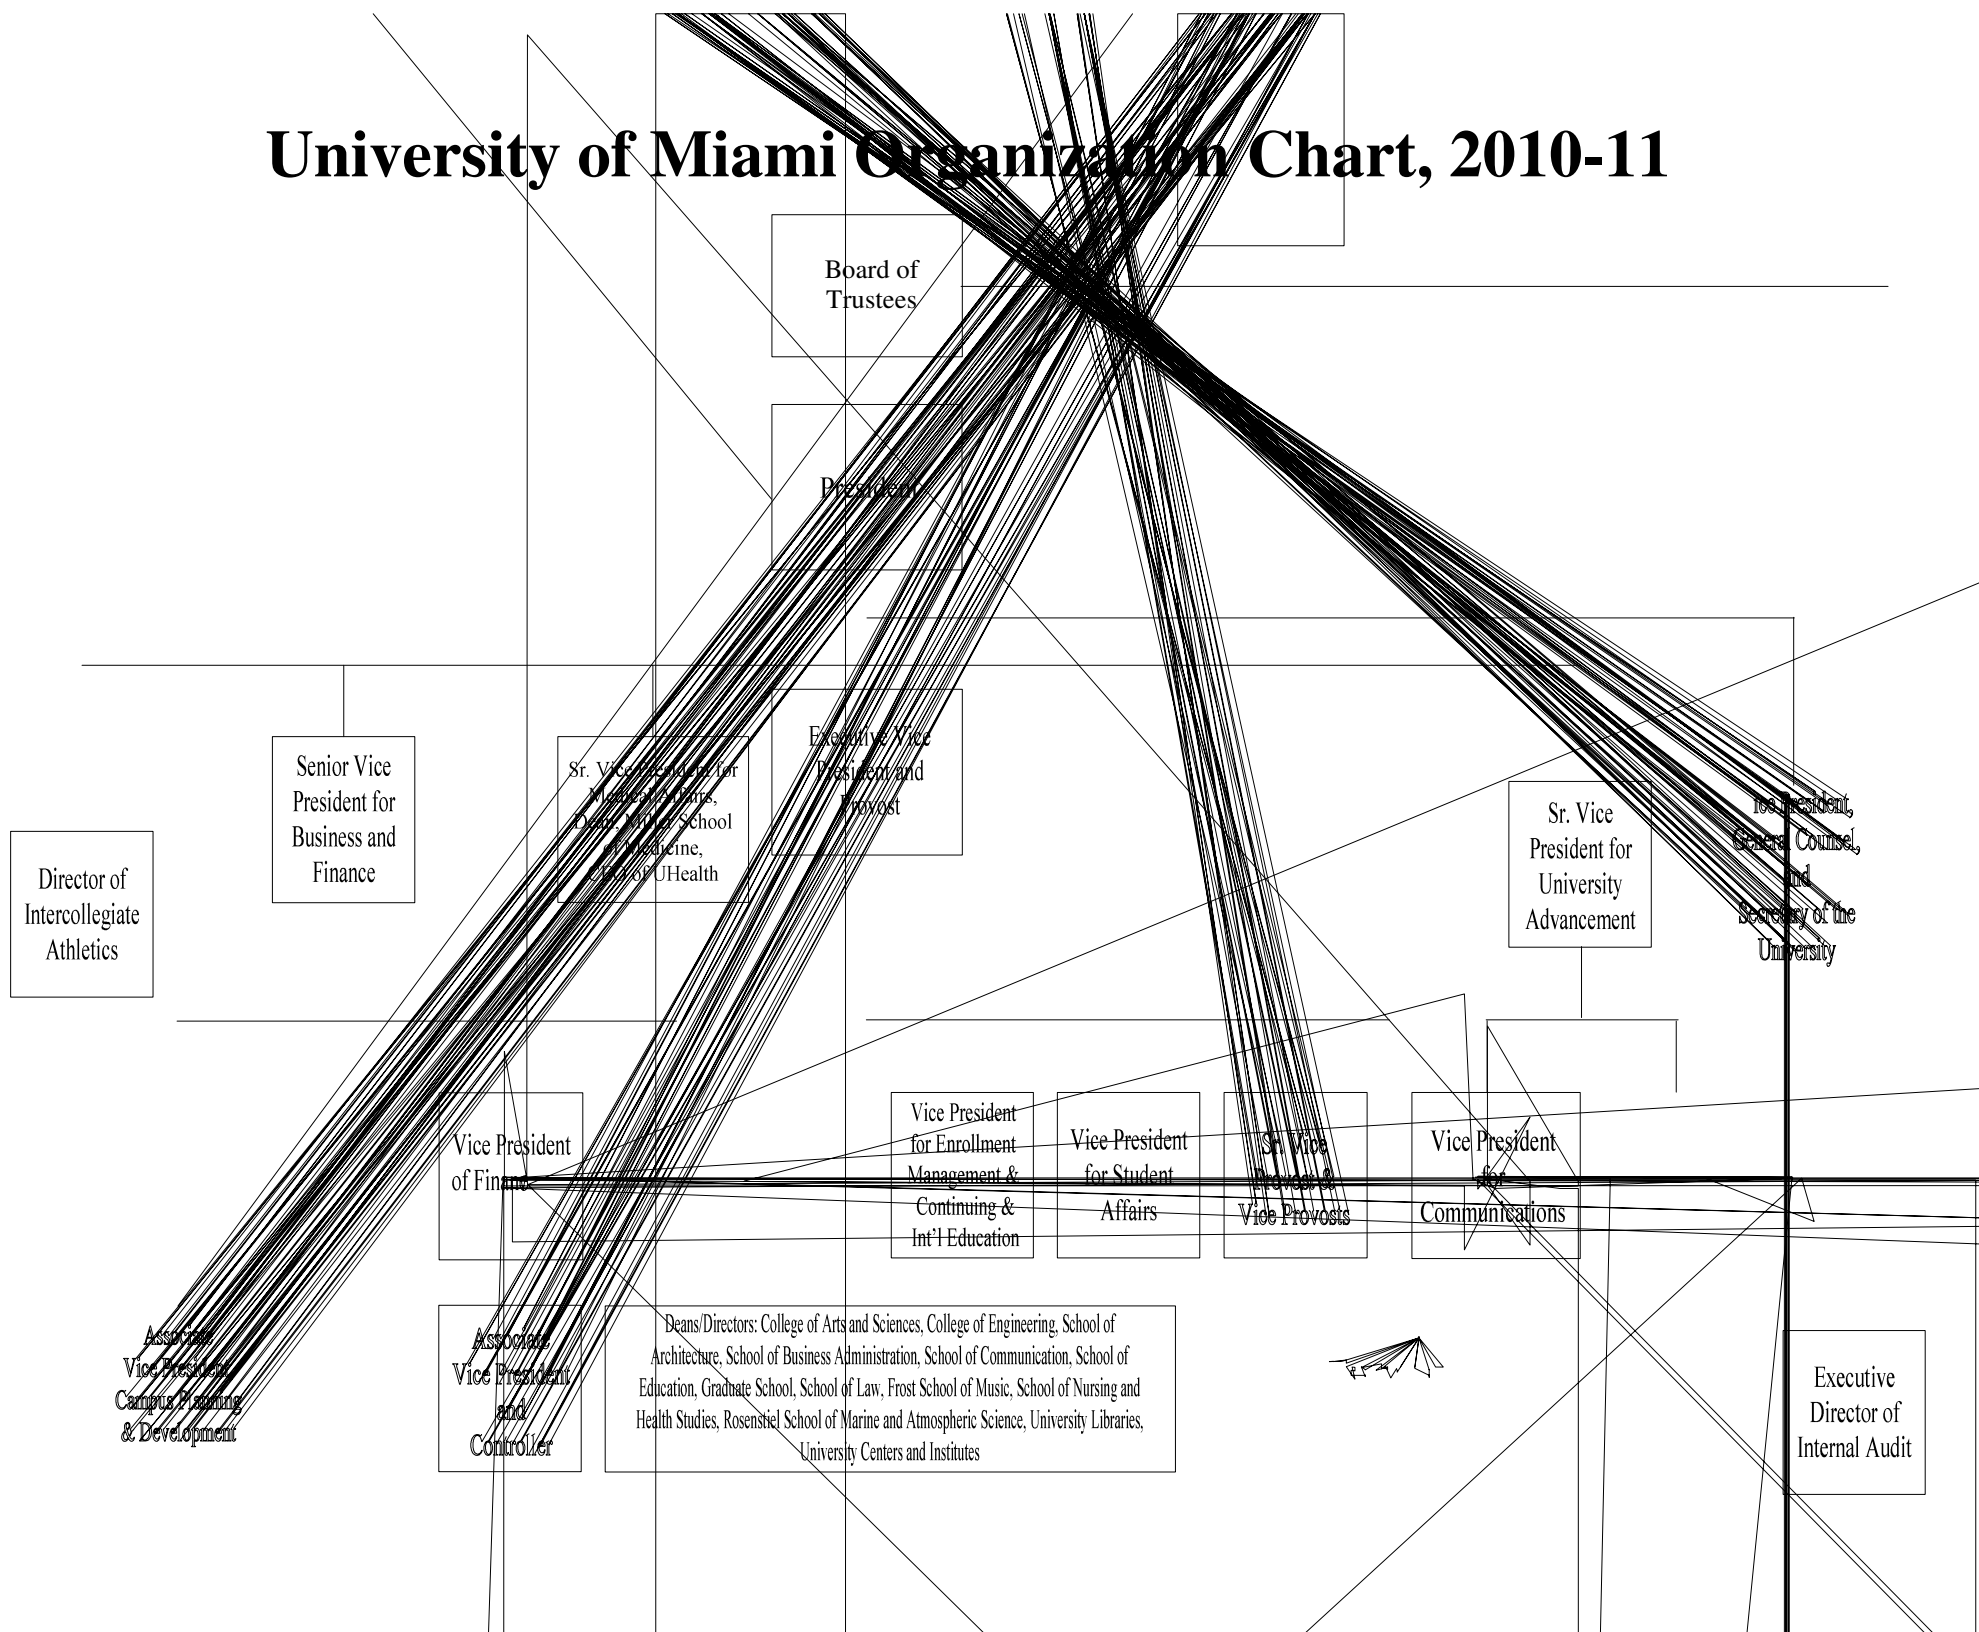

In 2011, the Rosenstiel School will launch a Masters of Professional Science for students who seek advanced academic training in career tracks relating to marine and atmospheric science. Designed for students who major in the sciences as undergraduates, this interdisciplinary curriculum is structured to allow students to expand applied scientific knowledge, as well as their professional skills. Degrees can be earned in as little as 12 months in one of several focus areas: aquaculture; broadcast meteorology; coastal management; computational meteorology and oceanography; fisheries management; marine mammal science; oceans and human health; tropical marine ecosystems; weather, climate and society; and weather forecasting.

The Abess Center builds upon the University of Miami's dynamic programs in marine biology, geography, epidemiology, urban planning, ecology, and environmental law, offering an innovative interdisciplinary curriculum for students to explore emerging environmental science and policy issues. Established in 2002, the Abess Center involves graduate and undergraduate students in problem-oriented learning, and affords them the opportunity for substantial field experience. In 2010, the Abess Center inaugurated the R.J. Dunlap Marine Conservation Program in collaboration with the Rosenstiel School of Marine & Atmospheric Science. It focuses on advancing ocean research through exciting hands-on field and virtual learning experiences for high school and university students, while fostering initiatives that bridge the critical gap between hard science and ecosystem policy.

Cutting-edge research and education at the Rosenstiel School is supported through grants from government agencies and private organizations, as well as innovative partnerships and individual

donations. Graduate students are an integral part of the research effort, and research programs, many of which are multidisciplinary in nature, provide a dynamic environment for collaboration among professors and students.

* *The Department of Marine & Atmospheric Science moved from Arts and Sciences and became a part of the Rosenstiel School of Marine & Atmospheric Science in 2008.*

Note: Numbers in this table are the sum of first, second, and third majors from all degrees. The sum across departments represents a duplicate headcount.

Note: The fall-to-fall retention rate is the percent of full-time students enrolled at benchmark in one fall who re-enroll or graduate by benchmark of the next fall.

N is total number in first fall cohort; % is the percent who returned/graduated

Source: PIR Retention Rate (Benchmark) Database

GRADUATION RATES
Trend Data

GRADUATION RATES							
Time to Degree	Cohort Year*						
	2000	2001	2002	2003	2004**	2005**	2006**
4 years or less	58.0%	62.7%	64.1%	66.5%	68.1%	65.5%	68.4%
5 years or less	71.3%	74.8%	75.1%	78.3%	78.8%	76.0%	na
6 years or less	73.3%	76.3%	76.8%	79.5%	80.1%	na	na
Number in cohort	1,965	2,152	2,046	2,066	2,025	2,257	2,046

* *Graduation rates are based on the U.S. Department of Education's methodology: Cohort is degree-seeking students who enrolled for the first time in college either in the fall or in one of the two preceding summer sessions and who were enrolled full-time in that fall. Graduation rates are the percent of the cohort who earned a degree by time indicated (time to degree is through August 31st of degree year). Deceased students are excluded.*

** *Preliminary, unofficial*

Total Undergraduate Budget							
Tuition, Fees, Charges & Expenses ³	\$44,122	\$46,472	\$49,950	\$53,544	\$55,454	4%	26%

¹ Mandatory fees for undergraduates include Student Activity (\$264), Athletic (\$118), and Wellness (\$292) fees. For full-time undergraduates, University Center and all course-related fees are included in the tuition. Beginning in Fall 2010, all new undergraduate, graduate, and law students, regardless of full-time/part-time status, will be charged a mandatory fee to cover services from the Student Health Center and Counseling Center (\$200). Full-time continuing undergraduate students will still receive these services without the additional fee, which is included as part of their tuition. Full-time continuing graduate and law students will continue to pay the fee as before. Part-time continuing students have the option of paying this fee to receive these services. A health insurance fee is automatically charged to all new students, but students with comparable insurance coverage may request a waiver.

² Starting in Fall 2009, a one-time allowance for the purchase of a computer was included in personal expenses.

³ Room and board charges included in the Total Undergraduate Budget are based on double occupancy in the residential college and the 20-meal plan.

RESEARCH FUNDING
Five Year Trends, Fiscal Years

RANK AND AMOUNT (IN THOUSANDS)					
Research Funding from Survey by National Science Foundation (NSF) of R&D Expenditures and Report from the National Institutes of Health (NIH)	Fiscal Year Ending				
	2005	2006	2007	2008	2009
Federally Financed Research & Development Expenditures for Science & Engineering (NSF Survey of R&D)					
Rank among Universities & Colleges	60	66	66	62	60
Dollar Amount in Thousands	\$156,059	\$150,408	\$147,535	\$165,986	\$172,000
Total Research & Development Expenditures for Science & Engineering (NSF Survey of R&D)					
Rank among Universities & Colleges	77	79	81	78	77
Dollar Amount in Thousands	\$209,572	\$213,516	\$210,534	\$241,775	\$248,029
Federal Obligations for Science & Engineering (NSF Study)*					
Rank among Universities & Colleges	61	64	58	na	na
Dollar Amount in Thousands	\$136,847	\$127,767	\$147,292	na	na
Federal Obligations for Research & Development in Science & Engineering (NSF Study)*					
Rank among Universities & Colleges	57	58	54	na	na
Dollar Amount in Thousands	\$129,345	\$121,012	\$141,255	na	na
NIH Extramural Awards to Domestic Higher Education**					
Rank among U.S. Institutions of Higher Education	63	na	na	na	na
Dollar Amount of Awards in Thousands	\$94,838	\$87,254	\$103,383	\$104,780	\$108,044
NIH Extramural Awards to U.S. Medical Schools**					
Rank among U.S. Medical Schools	47	52	44	44	na
Dollar Amount of Awards in Thousands	\$83,739	\$72,607	\$88,082	\$88,831	\$96,854

* NSF obligations are not reported by UM. Information is obtained by NSF from other governmental agencies. Obligations represent the amount of orders placed, contracts awarded, services rendered, and similar transactions during a given period, regardless of when the funds were appropriated and when future payment of money is required. Obligations differ from expenditures in that funds allocated by federal agencies during one fiscal year may be spent by the recipient institution either partially or entirely during one or more subsequent years.

** The total cost given in the awards above is the sum of the direct and indirect costs for each fiscal year, and not for the life of the project. Note: Beginning in FY2006, NIH no longer provides comparative ranking tables on its medical research funding. Although it was possible to recreate rankings for awards to U.S. Medical Schools for FY 2006 and later, rankings for awards to U.S. Institutions of Higher Education were not reproducible. Fiscal year is based on NIH fiscal year, not UM's fiscal year.
